	NUR 293	Life Transitions V	8 q hrs

** = Technical college transfer credit will be determined by GCSU's Admissions Office. To be determined after review of technical college programs by the registrar's office of GCSU. Pending 2/16/04

Note: 6 hours are needed to transfer in. Georgia Technical Colleges (there are 4 in Georgia with an associate's degree program in nursing) remain on the quarter system. 5 quarter hours are equivalent to 3 semester hours. So to transfer 6 semester hours, the technical associate degree graduate will transfer 10 quarter hours to GCSU. They may require more than one course being accepted for transfer credit in both associate degree and technical associate degree programs.
