This Academic Restoration Plan form has been developed to assist students experiencing academic difficulty (either Academic Warning or Academic Probation) at Georgia College.

**Academic Warning:** A student incurs academic warning at the end of any semester in which the institutional average falls below the standard for good standing. To avoid being placed on academic probation the student must earn sufficient grade points during the next semester of enrollment to raise the institutional average to the minimum standard for good standing.

**Academic Probation:** Academic Probation recognizes that a student is in serious danger of being dismissed from the University and notifies the student that a plan must be developed and implemented to improve the quality of his/her academic work. A student will be placed on probation at the end of any semester in which the institutional average remains below the stated minimums and academic warning has been issued during the previous semester.

A student and advisor are encouraged to work together to identify and build upon the student’s strengths as the student works toward academic success. This Academic Restoration Plan is a vehicle by which the student can create an individualized plan and plot his/her steps to academic success.

**Student’s Individual Situation as applied to the GCSU Academic Good Standing Policy:**

Major: ___________________________ Earned Hours: _______ Institutional GPA: _________

Academic Standing: □ Warning □ Probation

**Restoration Plan** – I plan to accomplish academic success by (attach additional sheets if necessary):

---

I understand that failure to increase my institutional GPA may result in my dismissal from GCSU.
