Operations  
Manager at  
Accountants One

## WHAT DO YOU DO ON A DAY-TO-DAY BASIS?

I work hand in hand with our COO working on legal documents, compliance with state regulations, creating and improving internal processes, integration of new software and systems, and assisting the team to make their jobs easier/efficient.

# DO YOU HAVE ADVICE FOR STUDENTS?

"I have learned that what matters most is your character and integrity. That means following through with your values through your actions and choices. That is how you truly live towards excellence in whatever you pursue. Also, life throws things at you that are not according to your lesson or life plans. That doesn't mean do not plan. It just means be willing to adapt and grow from the plan."
