

## DUO Enrollment/Installation for iPhone:

Notice: Please make **certain** that your phone has the latest software update loaded. Otherwise DUO may force you to perform updates. **Please be sure to use your @bobcats.gcsu.edu credentials.**

Go to Unify ([unify.gcsu.edu](http://unify.gcsu.edu)), click on the green DUO Enroll button. You'll be asked to authenticate (as if you were going into OneUSG):

A screenshot of a login form. It features two input fields: the top one is labeled 'Unify User Name' and the bottom one is labeled 'Password'. Below these fields is a dark blue button with the text 'SIGN IN' in white capital letters. The entire form is set against a light gray background.

Once authenticated, you will see the GC's DUO setup screen: Press "Start setup" to proceed.

## Protect Your Georgia College Account

Two-factor authentication enhances the security of your account by using a secondary device to verify your identity. This prevents anyone but you from accessing your account, even if they know your password.

This process will help you set up your account with this added layer of security.

**Start setup**

The next screen will ask you to select the type of device you are adding. Select Mobile Phone and press "Continue":

## What type of device are you adding?

**Mobile phone** RECOMMENDED

**Tablet** (iPad, Nexus 7, etc.)

**Landline**

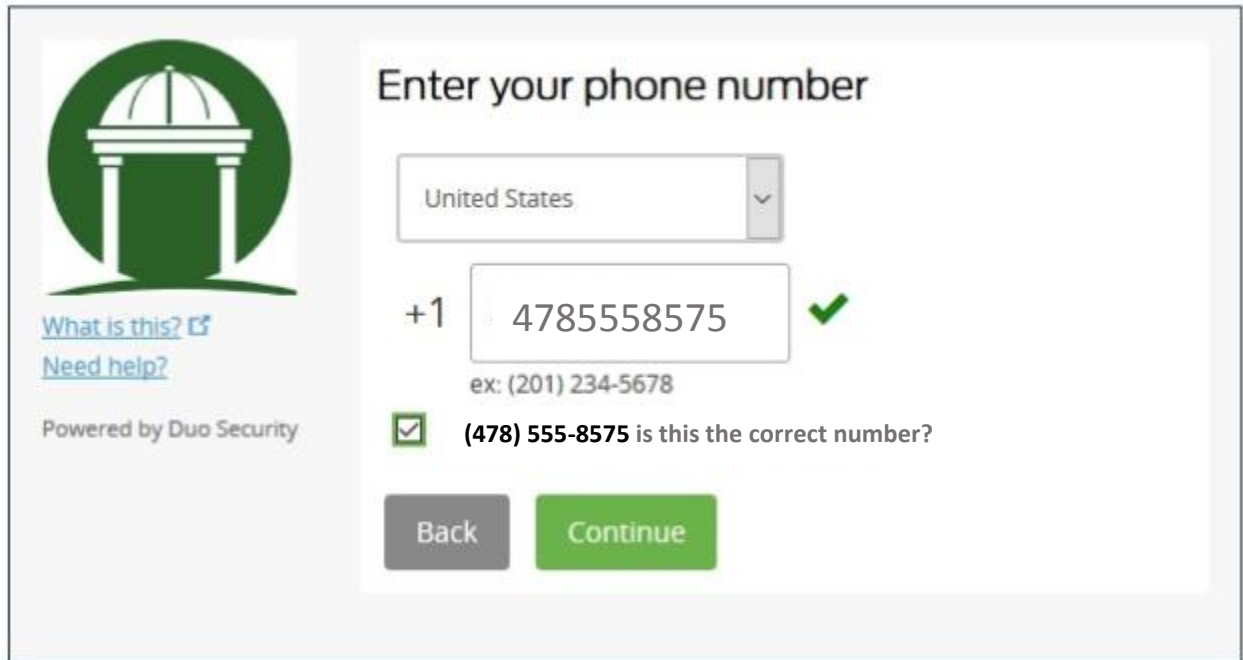

**U2F token**

**Continue**

Next enter your mobile phone number, area code first, check the box for the correct number then press “Continue” once.

The screenshot shows a web interface for Duo Security. On the left is a logo of a building with a dome. Below the logo are links for "What is this?" and "Need help?", and the text "Powered by Duo Security". The main heading is "Enter your phone number". There is a dropdown menu for "United States". Below that is a text input field containing "+1 4785558575" with a green checkmark to its right. Below the input field is an example "ex: (201) 234-5678". A checkbox is checked, and the text next to it is "(478) 555-8575 is this the correct number?". At the bottom are two buttons: "Back" and "Continue".

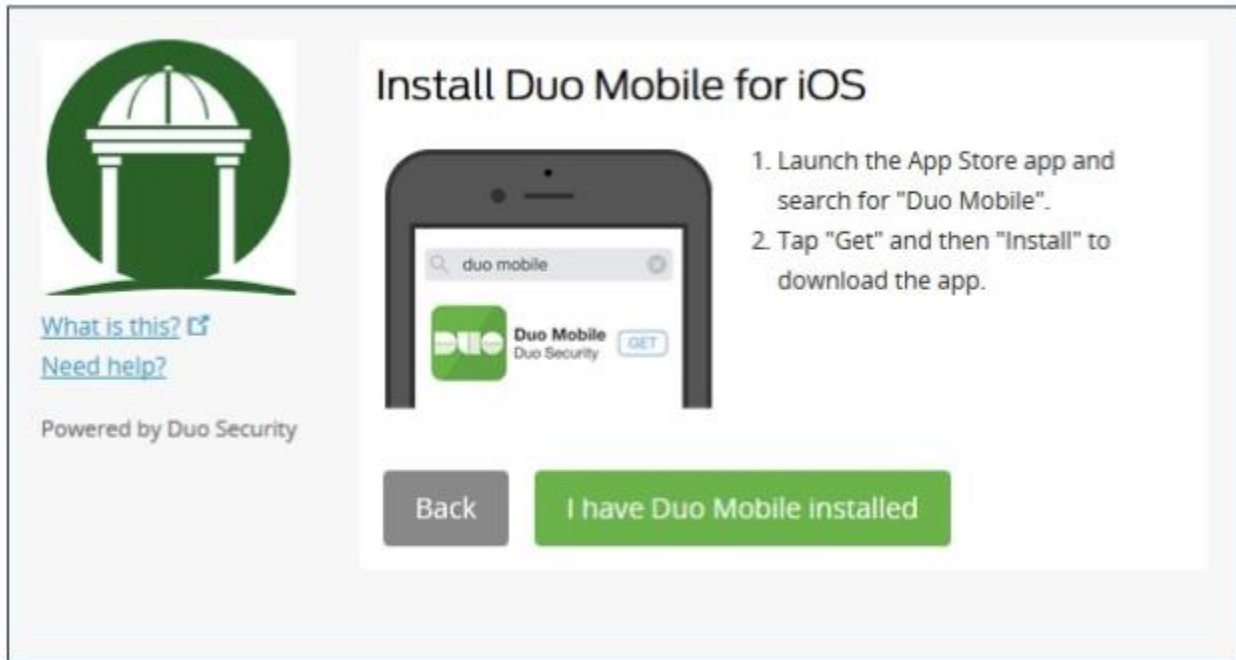

This next screen will ask you for the type of phone you are using. Choose “iPhone” and press “Continue”:

The screenshot shows a web interface for Duo Security. On the left is the same building logo as in the previous screen. Below the logo are links for "What is this?" and "Need help?", and the text "Powered by Duo Security". The main heading is "What type of phone is 478-555-8575?". There are four radio button options: "iPhone" (selected), "Android", "Windows Phone", and "Other (and cell phones)". At the bottom are two buttons: "Back" and "Continue".

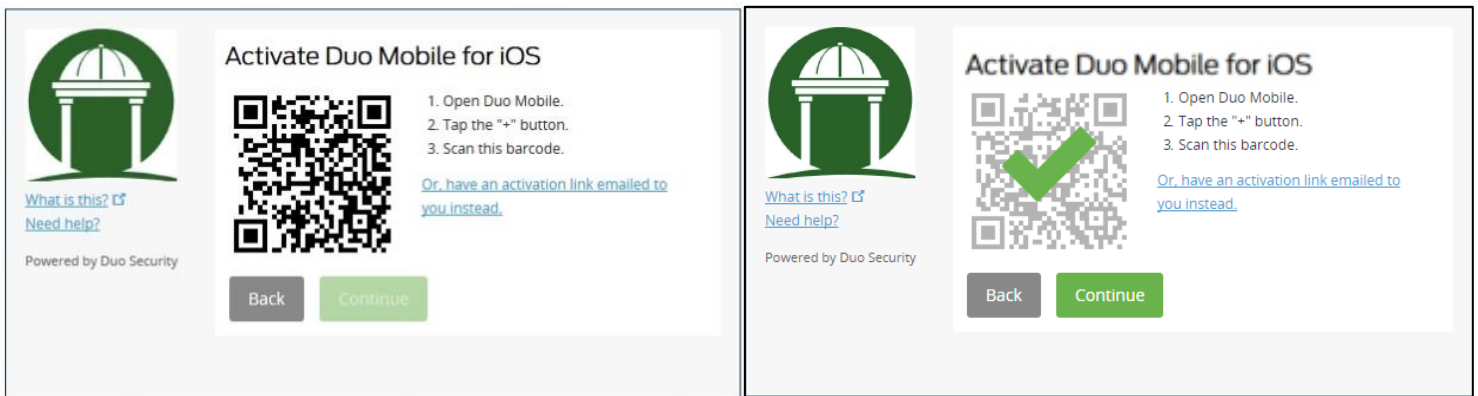

DUO will prompt you to install the DUO Mobile app for phone. Launch the App Store app on your iPhone, then search for “**Duo Mobile**” exactly. Make sure you have selected the green “Duo Mobile” app, press “Get” and then “Install” to download to your iPhone.

Once you have installed DUO Mobile on your iPhone (it should just take a minute), press the “I have Duo Mobile installed” button on your computer screen.

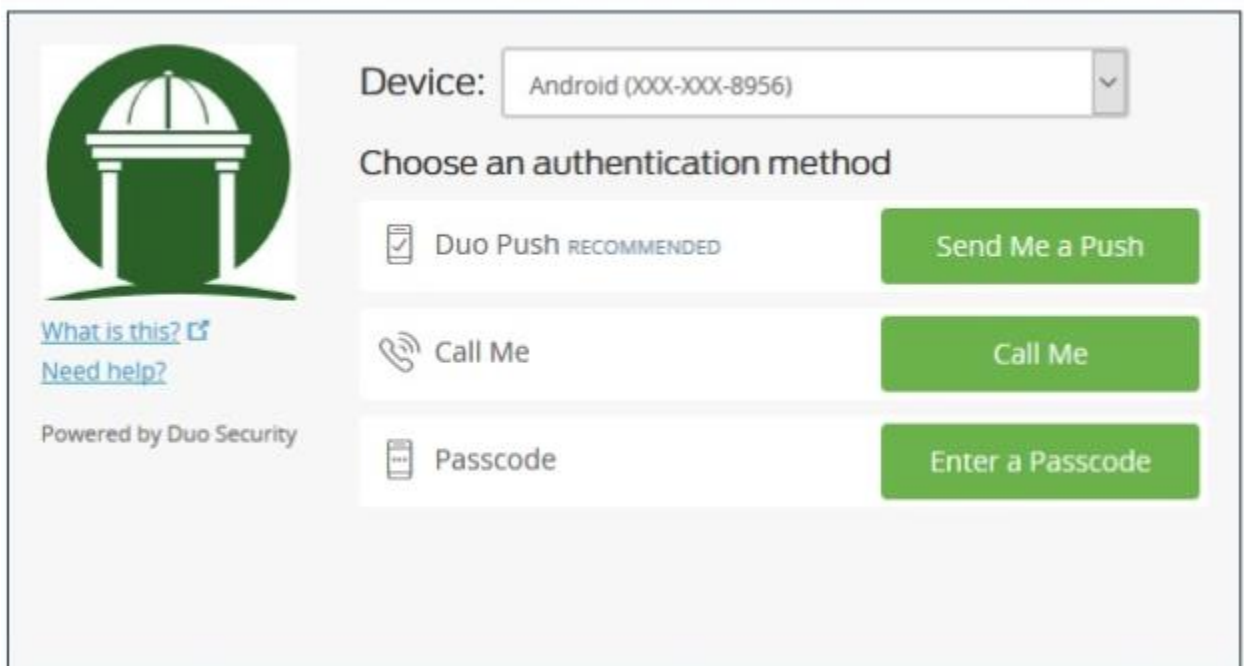

Now that you’ve loaded DUO on your phone, it’s time to load the Georgia College key to your phone.

A new browser window will open the Activation screen. Open the DUO Mobile app on your phone, and tap the “+” button. Using the camera on your iPhone, scan in the black square barcode. It will automatically load once it scans the image properly.

You have now authenticated and loaded DUO to your phone. Next choose “Send Me a Push” to send this to your phone.

Once you press the “Send me a Push” button on your screen, you will be sent a Login Request very similar to the one shown below:

Press the green “Approve” button and you’ll see the screen below.

If you EVER are presented with this DUO screen and you didn't initiate the login, then your account has been hacked. In that case, always press "Deny". As quickly as you can, log in to Unify ([unify.gcsu.edu](http://unify.gcsu.edu)) and change your password. Then, please notify the Serve Help Desk (478-445-7378).

Please take a minute to use DUO-Self –Service to add an additional device to your account in case you ever loose, trade in, or get a new phone.

Click the blue **"Logout"** text to completely log out of the system and you are done installing/enrolling into the DUO system.
