Adjt & Insp. Gen's Office
Richmond Oct 19/61.

Sir

Enclosed I hand you a list of the Georgia Regiments as they are known to the War Department.
It is desirable that regiments from each State should have but one set of running numbers and the distinction between regiments organized by your state and those by our government is for the former Volunteers, the latter Provisional Army. Having learned that you have several regiments in Georgia not yet reported the Department has left vacant the numbers between 28 and 35 from which you will please number your regiments. In order to secure harmony in numbers the Department will inform you by telegraph or otherwise whenever a regiment is organized by it and request that you will furnish the same information in your organizations.

I am Sir respy
