Pathway Information

Effective Semester and Year:

Admission Requirements

Admission to the dual degree pathway does not guarantee admission to the graduate program.

Discuss how and when students may apply to the pathway. Include specific admissions requirements, such as coursework, GPA, and any required tests.

Admission to Pathway

Admission to Graduate Program

Curriculum:

Integrity of each individual program must be maintained when selecting courses (maximum 12 credit hours)

Specify which graduate course may be used to satisfy undergraduate and graduate program requirements. Approved courses must be options for any student admitted into the Double Bobcat pathway. Topic Courses (5950/6950) may only be included if any section of a topics class may be used. If differentiation is required, departments should submit a new course approval to obtain a permanent number for that course/those courses. Note: If counting as a general elective for undergraduates, please note *elective, no specific equivalent is necessary*.

This graduate course... List one subject, number, title per line	...will substitute for this undergraduate course in the undergraduate major program listed above List one subject, number, title per line	Admitted pathway students may complete this graduate course: Select one option <ul style="list-style-type: none"> • Any semester after acceptance • After completing these prerequisites: • Other: 	This graduate course is offered Describe frequency

Provide any additional requirements that are unique to the pathway, such as certain courses, areas of emphasis, thesis vs non-thesis options (optional):

Provide a sample program of study. Include course prefix, number, and credit hours (i.e. ENGL 1101, 3):

Year	Semester		
	Fall	Spring	Summer
Third			
Fourth			

Career and Academic Opportunities

Include career and academic opportunities students may be eligible for after completion of both undergraduate and graduate programs of study.

Resources (optional)

Describe any additional resources required to implement the pathway. If resources are needed, how will these needs be met?

Comments (optional)
