

International Baccalaureate (IB)

#

The International Baccalaureate (IB) program's examinations are administered through high schools. For information regarding the courses or examinations offered, please contact your high school counselor or principal. Additional information may be obtained through international Baccalaureate North America, 212-696-4464, or www.ibo.org.

An original College Grade Report must be sent from IB directly to Georgia College (CEEB 5252) in order to receive credit. This request may be made when students register for the exam. A "K" grade will be awarded for IB credit. This grade will not affect the student's grade point average but will count toward total hours and will fulfill degree requirements.

The following equivalencies are effective for students entering Georgia College in Fall 2020. **Equivalencies for future students are subject to change as a result of changes in IB test content and Georgia College course/curriculum changes.**

Additional courses may be considered for credit. If you have completed an IB exam that is not on this list, please contact the Registrar's Office for equivalency information.
