Verification of Lawful Presence

According to Board of Regents policy, Georgia College is required to verify the legal presence in the United States of all new and readmitted students.

As one of the five institutions within the University System that fall under the Board of Regents' Policy 4.1.6, Georgia College must also verify the lawful presence of all applicants prior to offering final admissions into the institution. This policy states:

4.1.6 Admissions of Persons Not Lawfully Present in the United States

A person who is not lawfully present in the United States shall not be eligible for admission to any University System institution which, for the two most recent academic years, did not admit all academically qualified applicants (except for cases in which applicants were rejected for non-academic reasons).

All applicants must supply the proper documentation to clear this requirement before final admission will be offered. Below you will find a listing of acceptable forms of documentation and the method by which it may be supplied to Georgia College.

An applicant may clear the verification through **one** of the following:
