About The Mini-Grant:
The 2020 GC Journeys/MURACE Undergraduate Research Department Mini-Grant program is intended to help scale Mentored Undergraduate Research and Creative Endeavors as a Transformative Experience. In an effort to incentivize and reward faculty mentors for their hard work, both GC Journeys & MURACE have teamed up to support faculty leading these experiences by offering them professional development money.

The expectation is that winners will mentor undergraduate students and those students will present their research. Please see the application for more details.
