

Department of Theatre

Careers in Theatre

With the expansion of the arts industry, both nationally and internationally, the opportunities for employment for music graduates and for theatre graduates are wide and highly varied.

In theatre, opportunities include the following: acting, directing, technical work, play writing and dramaturgy in professional and community venues, and on stage or in television/film work; commercial acting, directing and technical work; teaching drama/theatre (secondary school, university, or studio); arts management; presentation consultation in business settings; commercial and architectural lighting design.
