

Dr. Chavonda J. Mills, is Chair of the Department of Chemistry, Physics and Astronomy and Professor of Chemistry at Georgia College. Since joining GC in 2006, Dr. Mills has consistently provided extensive and diverse leadership at all levels of the university. These include college-level leadership as Interim Associate Dean and university-level leadership in the University Senate as Presiding Officer and as co-Chair of the President's Commission on Diversity. A champion for enhancement of science curricula and diversifying the STEM pipeline, Mills has secured more than \$1 million in funding from multiple agencies to support research in these areas.

Mills holds a B.S. in Chemistry from Spelman College, B. S. in Chemical Engineering from the Georgia Institute of Technology, and Ph.D. in Medicinal Chemistry from Florida A&M University. She holds a patent in the development of synthetic flavonoids as methods of treatment of HIV infection and other pathologies and has published in the areas of medicinal chemistry and science education. Mills is a graduate of the 2016 HERS Summer Institute for Women in Higher Education and 2017 AAC&U Emerging Leaders Program. She is the co-founder of the Georgia College Women's Leadership Faculty Fellows Program.
