

# GEORGIA COLLEGE SPRINGFEST 2020

## THE COLLEGE OF ARTS AND SCIENCES

The College of Arts and Sciences provides focus for the university's statewide liberal arts mission and offers a broad array of academic options. The college comprises 13 academic departments with programs in more than 35 disciplines. While pursuing a major in Arts and Sciences, students are engaged both in and beyond the classroom with faculty/student collaborations, artistic and scholarly research projects, integrated service learning and senior culminating experiences. Students are challenged to address the historical and cultural foundations of their discipline, to think critically and creatively, to act with ethical and aesthetic awareness and to communicate effectively. Whether planning on graduate school or employment, graduates of the College of Arts and Sciences are ideally prepared to meet the challenges of our rapidly changing world.

Learn more about your major of interest by attending its open house. If you have not yet decided on a major, please choose one area of interest and attend that open house. 10:45 a.m.-12:30 p.m.
